

Regional Technology Center

The Regional Technology Center has grown from an exciting partnership between the Valley City – Barnes County Development Corporation and Valley City State University.

The Development Corporation owns the 20,000 sq.ft. state-of-the-art business incubator

Our goals and objectives are:

- Assist growing companies looking to expand.
- Support entrepreneurs wanting to start a business.
- Provide a skilled workforce for growing companies.
- Provide business and career opportunities for people.
- Continue developing partnerships between private businesses and Valley City State University.

Professional training, customized learning, career opportunities, cutting edge technology and related services are available through the Center and Valley Development Group Partners.
