

The 2010 Governor's Rural Community Summit will be held August 24-25 at the Holiday Inn in Minot. The conference is a unique two-day event that will showcase breakthroughs for rural communities. The conference is intended to provide information and strategies that help rural communities succeed with business and community development, workforce attraction, and tourism and destination development.

Please take a few minutes to nominate a project or idea in an effort to collect some best practice models from leading economic development communities in ND. The examples collected will be compiled into a published resource shared at the Governor's Rural Community Summit.
